HINTS FOR THE WARM SEASON.

THIS wonderful compound combines MEDICAL POWERS over all other preparations ever formed for the relief of those diseases for which it is recommended, such as Headache, Dizziness, Sleepiness Noises in the Head, Bad Taste in the Mouth, Nausea or sickness in the Stomach, Loss of Appetite, Indigestion, Dyspepsia, Fever and Ague, Pain after Eating, Sour Stomach, Heartburn, Jaundice, Costiveness Determination of Blood to the Head, Piles, Coughs, Colds, pain in the side, back, limbs and joints, Rheumatism, all Chronic Diseases, Scrofulous Humors, Salt-rheum, and all Cutaneous Eruptions of the Skin, General Debility, &c

The DANDELION AND TOMATO PANACEA is particularly recommended in cases of Indigestion and Dyspepsia The following are some of its distressing symptoms Palpitation of the heart, heartburn, loss of appetite, pain after eating, languor, melancholy, restlessness, &c It will cure the worst diseases of

RHEUMATISM,

and will eradicate mercury from the system infinitely faster and better than the common Sarsaparilla preparation The *Dandelion and Tomato Panacea* is, as all must be aware, from the ingredients of which it is compounded, the best as well as the safest

Spring and Summer Medicine

now before the public. Spring and Summer are the seasons when

Jaundice Complaints

are most prevalent The symptoms of these complaints are

Drowsiness, Dimness of Sight, &c

It has proved itself a most astonishing and effectual remedy for that worst of all maladies,

The Piles,

because it cleanses and enables the stomach to discharge into the bowels, and causes a free circulation, and regulates the whole system, and thereby prevents

Humors

of long standing, and in fact it is requisite for the promotion of

READ THE FOLLOWING.

From the "Western Star," a religious periodical, published at Jacksonville, Illinois.

"DOWNS' VEGETABLE BALSAMIC ELIXIR—We are not in the habit of puffing medicines in our columns, but having used the above medicine in our family with gratifying success, and being persuaded from all we can learn concerning it, that it is an excellent medicine for Coughs, Colds, Consumptions, Whooping Cough, Asthma, and diseases of the Chest and Lungs, we do not hesitate to give it a cordial notice.

Elder Downs, an acquaintance of ours, was himself an invalid for a long time, and was thought to be far gone with the consumption, a disease hereditary in his father's family. This remedy was the means of restoring his own health, and multitudes have testified to its salutary effects upon themselves and families."

From the Missisco (Canada) Post, of April 6, 1846.

"REV. N. H. DOWNS' VEGETABLE BALSAMIC ELIXIR, for all diseases of the Chest and Lungs.—From the abundant testimonials of those who have made use of this preparation, we can recommend it to the public with the utmost confidence as to its use and efficacy. The great danger, also, of neglecting complaints incident to the chest and lungs, should persuade every person subject to such complaints to possess themselves of this valuable remedy."

Sold in Bangor by D. BUGBEE and G. W. LADD, of whom pamphlets may be had giving a full description of the medicine. 3tawd&w6m dec 26.

PATENTS.

AMERICAN AND FOREIGN OFFICE,
And Agency of the U S Patent Office, Washington

22 State Street—Boston.

THE subscriber, by appointment from the Commissioner of Patents, is Agent of the U S Patent Office for the purpose of receiving and forwarding to the same all such models specimens of ingredients, and manufactures as shall be intended to be patented, or deposited therein which will be received and forwarded, free of expense and risk, to their owners, and with all possible despatch The subscriber will prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents The experience of fourteen year's practice—an extensive collection of rare works documents, decisions, &c on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information to inventors desirous of securing Patents which in other respects might be difficult of attainment

RUST PROOF IRON,

FOR

ROOFING, WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those interested in roofing, to their GALVANIZED TIN PLATES, and to the many advantages which they possess over all metalic and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust having now been tested several years, both in this country and in Europe They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate, Iron, Zinc, &c, or any other metal now used for roofing, and consequently form a much better and tighter roof, requiring far less frequent repair, whilst the first cost is but a trifle more

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which Iron thus protected, can be applied In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere And they would especially call the attention of those interested in TELEGRAPHIC LINES, to their Galvanized Wire, which is now almost entirely used in Europe, and which answers every purpose as a conductor of electricity, costing only about one half as much as copper, and possessing equal durability with that metal

Having lately erected works in this city for the purpose of galvanizing Nails, Spikes, Bolts Wire &c, they will be able to furnish any article which may be desired A supply of Plates (manufactured in Europe,) constantly on hand from 16 to 32 wire guage GEO B MOREWOOD & CO.

Nos 14 and 16 Beaver-st, New York

The Patent Right for this article has been secured for the United States as well as Great Britain, and other European countries, and all legal measures will be taken to prevent any infringement by importation or otherwise

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

That PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders, proceeds directly or indirectly, from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS. The originator of the only true and genuine Sugar coated Pills, most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No. 323 Broadway, N York —Price 25 cents a single box, 5 boxes for one dollar

G. W. LADD, Agent for Bangor

Among the numerous remedies which stand reputable on the basis of an ancient name, are none perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article —They have gained their high reputation, alone by their good works Those who once try them, always use them again They are grateful to the stomach,—they improve the functions of secretion, nutrition and circulation They restore digestion and appetite, and create a natural warmth inwardly, which glows through the whole system, giving it greater vitality and animation The experience of thousands attest, to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system His digestive organs perform their proper functions, his blood regains its wonted purity, the oppressive sense of weakness and pain departs, and his body becomes endowed with renewed strength and vigor —while the mind resumes its original vivacity and clearness. Such are the results produced by Halsey's Sugar coated Pills, the mildest, yet most effectual preparation of the class in use

In BILLIOUS complaints, Costiveness, Indigestion, Dyspepsy, and all other disorders of the stomach they produce the most happy results For Sores, Boils, Saltrheum, Tetter, Erysipelas, Eruptions of the Skin, Scrofulous complaints and many other like diseases arising from IMPURE BLOOD, they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the boasted Sarsaparillas contain less of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills In Colds, Coughs, Influenza, Sore Throat, Headache, Giddiness &c, they are recommended with entire confidence, the relief in these cases is quick and permanent For Fever and Ague, Fevers Asthma Piles, Loss of Appetite, Dropsy, Jaundice Worms, Looseness, General Debility, and many of the various other diseases to which the human system is liable they have proved an infallible remedy Their action on the bowels is of the mildest character, even *over doses* never cause griping or unpleasantness, yet they are searching and efficient It is impossible by words, to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues

N B The *coating* of *sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this, they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills coated them and through the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar-coated Pills* In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents.

DR. UPHAM'S
Vegetable Internal Remedy
FOR THE PILES!

☞ **A Cure for Life Secured.** ☜

For the cure of Piles, Inflammation of the Liver and Spleen Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder Inflammatory and Mercurial Rheumatism Impurity of Blood Weakness and Inflammation of the Spine and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY invented by Dr A. Upham, a distinguished physician of New York city, is the only safe and successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public

Mark this, it is an INTERNAL REMEDY not an external application and will cure any case of the Piles, either Bleeding or Blind, Internal or External, and probably the only thing that will There is no mistake about it It is a positive cure speedy and permanent It is also convenient to decline to take and improves the general health in a remarkable manner

Each box contains twelve doses 1 [illegible] It is very mild in its operation and may be taken in cases of the most acute inflammation without danger All external applications are in the highest degree disagreeable, inconvenient, and offensive, and from the very nature of the disease, temporary in their effects This Medicine attacks the disease at its source and removing the *cause* renders the cure *certain and permanent*

INFLAMMATORY DISEASES—Although the Electuary was originally prepared for the cure of Piles, yet it has proved itself to be a medicine far superior to all others, in all diseases of an inflammatory character, with a determination of blood to any particular part or organ In Inflammation and Congestion of the Liver and Spleen Inflammation Soreness and Ulceration of the Stomach Bowels Kidneys, and Bladder, in Inflammatory and Mercurial Rheumatism, it is the best Medicine ever discovered

IMPURITIES OF THE BLOOD—For all Impurities of the blood arising from the imprudent use of mercury, or other causes for all Diseases of the Skin and Spinal Affections, for all cases where the blood is powerfully determined to the Head, producing dizziness and distress Dr Upham's Electuary is entirely unrivalled

TO MARRIED LADIES—Married ladies are almost invariably subject to that painful and troublesome disease, the PILES, with consequent Inflammation of the stomach bowels and spine, weakness of the back, flow of blood to the head, &c. The Electuary is perfectly safe for Pregnant Ladies and the most perfect Cathartic that can possibly be used as it will not only remove the Piles and all inflammatory diseases, *without pain or irritation*, but will ensure an easy time, a safe delivery and a sound constitution in the offspring

PULMONARY BALSAM.

FOR TWENTY YEARS THE MOST POPULAR REMEDY IN NEW ENGLAND,

FOR Coughs, Colds, Consumptions, Asthma Pleurisy, Phthisic Spitting of Blood Hooping Cough Bronchitis and Pulmonary Affections and Diseases of the Lungs of every kind

The Vegetable Pulmonary Balsam has now been very extensively used for the past twenty years, and probably with greater success than any other article known

Physicians write us that "they consider it a *safe* and *very efficacious* remedy, that will not disappoint the reasonable expectations of those who use it"

Another says, I have, for some time past, been in the habit of prescribing the Vegetable Pulmonary Balsam for incipient asthma, pleurisy, spitting of blood, and coughs or pulmonary affections of every kind —and while on vacation I found it superior to any other preparation used for the above complaints"

For the most conclusive testimony in its favor, see certificates accompanying.

The Vegetable Pulmonary Balsam was for many years the only article known as *Pulmonary Balsam* Its great celebrity has given rise to many *spurious* articles, which by partially assuming its name, or the *general* appearance of its bottle, are calculated to resemble it so nearly [illegible] are often foisted upon the public for the TRUE article Among these are "Carter's Compound Pulmonary Balsam," American Pulmonary Balsam," Vegetable Pulmonary Syrup" "Pulmonary Balsam" [illegible] "Hunter's Pulmonary Balsam," &c— were all of them. WORMS EASILY REMOVED.
Winer's Canadian Vermifuge.

HUNDREDS OF CHILDREN DIE every year from the disease produced by Worms! They are the cause of numerous and frightful diseases Indeed there is scarcely a complaint common to infancy and childhood which may not be produced or greatly aggravated by the presence of these destructive animals in the stomach and bowels. Cures are recorded of these producing St Vitus's Dance Locked-Jaw, Dropsy, Squinting, Loss of Feeling in the Limbs Rickets, Palpitation of the Heart, Eruptions, Dry Cough, Severe Pains, Paleness, Emaciation total Decline of Strength and consumption They consume all the nourishment in the body, and finally destroy the child.

WINER'S CANADIAN VERMIFUGE is a pleasant, safe, speedy and permanent cure for this dangerous affliction It has been faithfully tried, and is universally approved of even by Physicians It destroys the worms at once, dissolves and carries off the slime which forms the nest of worms and greatly improves and invigorates the system It is the most perfect thing of the kind ever invented, and no family should be without it.

P. S. Parents may be assured that this medicine is perfectly harmless in all its effects It is carefully compounded, of the very best materials, and there is not the least danger in using it.

Price only 25 cts per bottle,

The Texas Boundary---Evidence of Silas Wright.

We have frequently published extracts from the great speech of Senator Benton upon the Texas Treaty, in which he has shown clearly that an attempt to take possession of the Rio Grand region from the mouth to the source of that river, would be "an act of unparalleled outrage upon Mexico—the seizure of two thousand miles of her territory" The New York Gazette and Times furnish some evidence to the same point from Silas Wright, the Northern champion of the Locofoco party, as Mr Benton is the champion of the Western section The following is an extract from a speech of Silas Wright, delivered at Watertown, N Y during the campaign of 1844 It is conclusive as to his opinion of the boundary question at that time If these views of Silas Wright and Thomas H Benton are correct then is the present war a war of invasion and aggression on the part of the United States and to be justified by no sophistry of James K Polk or his followers

"There is another subject on which I feel bound to speak a word—I allude to the proposition to annex Texas to the territory of this Republic I felt it my duty to vote as a Senator and did vote against the ratification of the annexation It has been supposed by some that I gave that vote from an unyielding opinion that annexation never should take place That is not so I have made up no such opinion For the treaty I could not vote, and one of the reasons was that I believed then as now, if we propose to take that country into our confederacy, at the time and under the existing regulations between Mexico and Texas, it was our duty as one of the civilized nations of the earth to go frankly, honestly, openly to Mexico, and avow our wishes and designs—to offer to negotiate with her in reference to any claim she might have, and to make to her character, honor and interest, all proper and honorable tenders I believe the honor, faith and standing of this Union imperiously demanded this course Again, I believe that the treaty, from the boundaries that must be implied from it if Mexico would not treat with us embraced a country to which *Texas had no claim—over which she had never asserted jurisdiction and which she had no right to cede* On this point I should give a brief explanation

The treaty ceded Texas by name, without any effort to describe a boundary The Congress of Texas had passed an act declaring by metes and bounds what was Texas within their powers and jurisdiction It appeared to me then, if Mexico should tell us, 'we don t know you—we have no treaty to make with you—and we were left to take possession by force, we must take the country as Texas has ceded it to us—and in doing that or forfeiting our own honor, we must do injustice to Mexico, and take a large portion of New Mexico, the people of which have never been under the jurisdiction of Texas This to me, was an insurmountable barrier I could not place the country in that position"

☞ We received a few days since an elegant letter which has pleased and troubled us prodigiously We have resolved forty two times to lay it aside and say nothing about it. But somehow it haunts us and cannot thus be disposed of The intention was that we should receive the letter on calling at the unique little Post Office during the Fair got up by the good women—we beg pardon—by the Ladies of St John Church on Christmas eve But that office was burnt and the letter reached us through a *young* hand We supposed we had guessed at the author and tried to wink a reply across the church but this proved a comedy of errors And now we are furnished with a duplicate of the letter, and have become desperate for every line of the beautiful hand writing possesses a half persuasive half teazing and a lurkingly defiant look for a reply

Here is the letter —

Now, dear Mr Sayward as I am your friend,
And honestly wish your manners to mend
And can say what I please, you know, in a letter—
The more-important things the better—
Let me tell you now, you've a shocking bad way,
When you speak of the ladies' "good women" to say
Oh fie is it now a poet you'd be,
And don't know the odds between *a* and *e*?
For *woman* dear *woman* is poetry fine
But *Women*—oh dear! are *they* owned by the nine?
For the sake of our ears, and all our fine feelings
Dont call us "the *Women*" when you speak of our dealings,
But always remember that if to one ear
You utter "dear *Woman*" the word may be dear,
But if a whole parcel together you'd praise
To call us "good women" our dander will raise
Bangor, Dec 22, 1846

Authorities for the use of the term women are as thick as blackberries in August, but this special authority is not to be neglected, and since we may continue to use the favorite Anglo Saxon word woman—we dont care a fig about what term designates the whole parcel"—it is the singular that particularly interests us

Woman or *wifman* is the term given to the female of man, from her employment at the *woof* The male was called the *weap-man*, the *weapon man* and the female the *web* or *woof man* The unmarried female was called *spinster* as she is presumed to be occupied in spinning

The term Lady originated probably in some outlandish tongue and among some very old fashioned barbarians who supposed that when a man took a woman under his special case and conferred his name upon her, she was *halfed* or *lifted* or *ladied*

☞ The Skowhegan Press contains quite a complimentary notice of the lectures of Dr Paige, delivered in that town upon medical and scientific subjects, illustrated by numerous and interesting experiments in Electricity, Galvanism and Magnetism The Press also speaks of the happy effect of the application of electricity made by Dr Paige, in cases of rheumatic affection and contraction of the muscles The case of S L Boardman, Esq, is particularly referred to as having been sensibly relieved

We understand that the Mechanic Association are about making an engagement with Dr Paige for a course of his lectures in this city, and that they will be open to the public at a small admission fee We think our people will generally be interested in these lectures, especially in the numerous and brilliant experiments illustrating the subjects treated of

Pork Factory.

Our neighbor Henry Warren, Esq, brought into market recently, eleven hogs, clean, white, and handsomely slaughtered, the whole weighing between three and four thousand pounds — He has quite a pork factory at his farm on Lime street, where he has now about ninety hogs in a course of rapid preparation for market One principal object of keeping so large a family of porkers, is the preparation of manure from muck, of which he has a large supply There is an extensive slaughter house connected with the establishment. The hogs in their young days are encouraged to work, and the whole arrangements produce an enormous quantity of manure, and not a small quantity of pork After the working-days of the pigs are over, they are put into close quarters, and fatted exclusively on meal.

Fatal Accident.

Abial Evans a young man aged about seventeen, son of Mr Henry H Evans of this city, employed in the Webster Mill in this city was yesterday so greatly injured as to cause his death in about two hours

He was found wound upon the shaft with the haul up chain passed several times around his body It is supposed that the chain began to ride or wind on itself when he undertook to sway it off and his arm got caught and he carried upon the shaft, the chain passing over his body crushing it in a shocking manner There were several men at work in different parts of the mill but not in the room with young Evans, yet none of them heard any outcry and it was only on account of some jar in the machinery that the examination was made which resulted in his discovery

From Washington.

Correspondence of the N Y Express—Jan 7th

The situation of the administration at this crisis is truly deplorable That the recent action of the House of Representatives has displayed an unrelenting feeling of hostility towards the Secretary of the Treasury on the part of certain Northern and Western Democrats the simplest observer can see Various are the impulses which have induced the course of his assailants The old Van Buren and Wright men hate him with unquenchable hate for his agency in the defeat of the nomination of the former as President in 1844 and his alleged interference against Wright in the Governor s election last November Rathburn Preston, King, and others are most violent and determined and it is understood, speak for Wright by authority Their Western allies are influenced by various motives—Some have been disappointed—some are chagrined at the defeat of their appropriations for Buncombe—others are for Cass and believe the Secretary is not looking favorably that way—Benton, and his supporters in the Western States, hate the Secretary personally and all together have formed a combination and are resolved to effect his expulsion from the cabinet, and *mark me they will succeed* The Bill has just opened The game is hardly begun Mr Walker is a doomed man The Calhoun men are of opinion decidedly that Mr Walker has been President-ward too strongly and he will be abandoned by them The President cannot save him He has enough to do to take care of other matters The raising of money too enables the Treasury to get on in the subject, on which the enemies of the Secretary will show their hands The Slavery question will be mixed up with this subject in every shape, in which it is presented and that "on by *Democrats*" The Wright men by this course kill two birds with one stone — Mr Calhoun as well as Mr Walker, by this blow The South is by this system forced into direct and open opposition to the Mexican War It is openly announced that if this Slavery restriction is engrafted in any law for raising funds, similar to that proposed by Wilmot to the $2,000,000 secret service money bill last session they will vote against the whole measure, and Mr Dargan of Alabama, to day intimates pretty strongly that if the restriction is insisted on and adopted every Southern officer and soldier will throw away his arms, and refuse to render aid in the war

Nay, Mr Calhoun with the same forecast that induced him to oppose the declaration of war to avoid the agitation of this question is now to evade it in favor of withdrawing our forces back to the Rio Grande and be content with that as a boundary in the Gulf of Mexico and with California, North 36 30 (the Missouri compromise line) on the Pacific With these difficulties, the administration are in a more desperate condition than any that has preceded it The President it is said feels his situation sensibly Nothing will satisfy democrats now opposed to him but the resignation of his whole cabinet That Walker and Marcy soon will have to go no one doubts That the rest will be mixed out in the Spring, all are satisfied Congress will do but little this session An extra session will be held The President will be compelled to call it Congress will not be able amid the raging of the conflicting elements, to do what the crisis demands at this session D A C

The Cabinet in Washington.

Our readers may be able to understand the reason of the movements relative to the Lieutenant General, the vote in the House of Representatives at Washington and other matters that appear mysterious if it is said that the truth is the report which we have in a private letter from Washington, viz —that Mr Benton is basing full possession of Mr Polk and that Mr Walker and his friends are in another clique The success or defeat of the Lieutenant General scheme will be the triumph or defeat of the Benton clique in which is included the President A small paragraph in the Washington Union a few days since, stating that Mr Walker was about to resign was brought as an intimation of it to the Secretary from his opponents Our information leads to a belief that there will be a rupture in the Cabinet very soon —U S Gazette

The Rival Mechanicians.

BY L MARIA CHILD

'I am growing old, my sight is failing very fast,' said a famous watchmaker of Geneva, as he wiped his spectacles to examine several chronometers, which the two apprentices had brought him 'Well done! Very well done, my lads,' said he 'I hardly know which of you will best supply the place of old Antoine Breguet Thirty years ago (pardon an old man s vanity) I could have borne away the palm from a hundred like ye But my sight is dim and my hands tremble I must retire from the place I have occupied in this busy world, and I confess I should like to give up my business to a worthy successor — Whichever of you produces the most perfect piece of mechanism before the end of two years shall be my partner and successor, if Rosabella and I both agree to the decision'

The grand daughter, who was busily spinning flax, looked up bashfully, and met the glance of the two young men The countenance of one flushed and his eye sparkled, the other turned pale, and there was a painfully deep intensity in his fixed gaze

The one who blushed was Florien Arnaud, a youth from the French Cantons He was slender and graceful in figure, with beautiful features, clear blue eyes, and a complexion fresh as Hylas, when the enamoured water nymphs carried him away in their arms He danced like a zephyr, and sang little airy French romanzas in the sweetest of tenor voices

The one who turned pale was Pierre Berthoud, of Geneva He had massy features, a bulky frame, and clumsy motions But the shape of his head indicated powerful intellect, and his dark eyes glowed from under the pent house of his brows like a forge at midnight — He played on the bass viol and the trombone, and when he sang, the tones sounded as if they came from deep organ pipes

Rosabella turned quickly away from their expressive glances, and blushing deeply resumed her spinning The Frenchman felt certain the blush was for him, the Genevan thought it was for him But unlike as the young men were in person and character, and both attracted toward the same lovely maiden, they were yet extremely friendly to each other, and usually found enjoyment in the harmonious contrast of their different gifts The first feeling of estrangement that came between them was one evening when Florien sang remarkably well, and Rosabella accompanied him on her guitar Her countenance was more radiantly beautiful than usual, and when the fascinating singer rose to go, she begged him to sing another favorite song, and then another and another

'She never urges me to sing with her,' said Pierre, as he and Florien retired for the night

'And with very good reason,' replied his friend, laughing 'Your elephantine tone would quite drown her weak sweet voice, and her light touch on the guitar You might as well have a hammer-and anvil accompaniment to a Canary bird' Seeing discontent in the countenance of his companion, he added soothingly, 'Nay, my good friend, don t be offended by this playful comparison Your voice is magnificently strong and beautifully correct, but it is made for grander things than those graceful little garlands of sound which Rosabella and I weave together'

Pierre sprang up quickly and went to the other side of the room 'Rosabella and I' were sounds that went hissing through his heart, like a red hot arrow But his manly efforts soon conquered the jealous feeling, and he said cheerfully, 'Well Florien, let us accept the offer of good Father Breguet We will try our skill fairly and honorably, and leave him and Rosabella to decide, without knowing which is your work and which is mine'

Florien suppressed a rising smile, for he thought to himself, 'She will know my workmanship, as easily as she could distinguish my fairy romanzas from your Samson solos' But he replied, right cordially, 'Honestly and truly, Pierre, I think we are as mechanicians very nearly equal in skill But let us both tax our ingenuity to invent something which will best please Rosabella Her birth day comes in about six months In honor of the occasion, I will make some ornaments for the little arbor facing the brook, where she loves to sit, in pleasant weather, and read to the good old grand father'

'I will do the same,' answered Pierre, 'only let both our ornaments be machines'

They clasped hands, and looked frankly into each other s eyes, ratified the agreement From that hour, they spoke no more on the subject till the long anticipated day arrived The old watchmaker and his grand child were invited to the arbor, to pass judgment on the productions of his pupils A screen was placed before a portion of the rock and sat quietly waiting for it to be removed

'That duck is of a singular color,' exclaimed the young girl 'What a solemn looking fellow he is'

The bird, without paying any attention to her remarks, waddled into the water, drank, lifted up his bill to the sky, as if giving thanks for its refreshment, flapped his wings, floated to the edge of the brook, and waddled on the grass again When father Breguet threw some crumbs of cake to the ground, the duck picked them up with apparent satisfaction He was about to scatter more crumbs, when Rosabella exclaimed,—

'Why grand father, this is not a duck! It is made of bronze See how well it is done'

The old man took it up and examined it — 'Really I do not think anything could be more perfect than this,' he said 'How exquisitely the feathers are carved, and truly the creature seems alive He who beats this must be a skilful mechanician'

At these words, Pierre and Florien stepped forward, hand in hand, and bowing to their master, removed the temporary screen

On a black marble pedestal in the brook was seated a bronzed Naiad, seated on an overflowing vase The figure was inexpressibly graceful, a silver star with brilliant points gleamed on her forehead and in her hand she held a silver bell, beautifully inlaid with gold and steel There was a smile on her mouth, and she leaned over, as if watching for something in a little cascade which flowed down a channel in the pedestal Presently, she raised her hand and sounded the bell A beautiful little gold fish obeyed the summons and glided down the channel, his burnished sides glittering in the sun Eleven times more she rung the bell, and each time the gold fish darted forth It was exactly noon, and the water nymph was a clock

The watch maker and his daughter were silent It was so beautiful that they could not easily find words to express their pleasure

'You need not speak my master,' said Pierre, in a manly but sorrowful tone, 'I myself decide in favor of Florien The clock is his'

'The interior work is not yet examined,' rejoined his amiable competitor 'There is not a better mechanician in all Switzerland than Pierre Berthoud'

'Ah, but you know how to invest equally good workmanship with grace and beauty,' replied the more heavily moulded Genevan

'Study the graces, my boy, make yourself familiar with models of beauty,' said old Antoine Breguet, laying a friendly hand upon the young man s shoulder

'I should but imitate and he creates,' answered Pierre, despondingly, 'and worst of all, my good master, I hate myself because I envy him'

'But you have many and noble gifts, Pierre,' said Rosabella, gently 'You know how delightfully very different instruments combine in harmony Grandfather says your workmanship will be far more durable than Florien s Perhaps you may both be his partners'

'But which of us will be *thine*?' thought Pierre He smothered a deep sigh, and only answered, 'I thank you, Rosabella'

Well aware that these envious feelings were unworthy of a noble soul, he contended with them bravely, and treated Florien even more cordially than usual 'I will follow our good master s advice,' said he, 'I will try to clothe my good machinery in forms of beauty Let us both make a watch for Rosabella, and present it to her on her next birth day You will rival me, no doubt, for the Graces threw their garlands on you when you were born'

'Bravo!' shouted Florien, laughing and clapping his hands, 'The poetry is kindled up in your soul I always told you that you would be a poet, if you could only express what was in you'

'And your soul expresses itself so easily, so fluently!' said Pierre, with a sigh

'Because my springs lie so near the surface, and yours have depths to come from,' replied his good natured companion

'The worst of it is, the cord is apt to break before I can draw up my weighty treasures,' rejoined Pierre, with a smile 'There is no help for it There will always be the same difference between us that there is in our names I am a rock, and you are a flower I might be hewed and chiselled into harmonious proportions, but you *grow* into beauty'

'Then be a rock, and a magnificent one,' replied his friend, 'let the flower grow at your feet'

'That sounds modestly and well,' answered Pierre, 'but I wish to be a flower, because ——'

'Because what?' inquired Florien, though he half guessed the secret, from his embarrassed manner

'Because I think Rosabella likes flowers better than rocks,' replied Pierre, with uncommon quickness, as if the words gave him pain

On New Year s day, offerings, enclosed in one box, were presented by the good grand father The first was a golden apple, which opened and revealed on one side an exquisitely neat watch, surrounded by a garland tastefully wrought in rich damaskeening of steel and gold, on the other side was a rose intertwined with forget-me-nots, very perfectly done in mosaic When the stem of the apple was turned, a favorite little tune of Rosabella s sounded from within

'This is surely Florien s' thought she, and she looked for the other gift with less interest It was an elegant little gold watch, with a Persian landscape, a gazelle and birds of paradise beautifully engraved on the back When a spring was touched, the watch opened, a little circular plate of gold slid away and up came a beautiful rose, round which a jewelled bee buzzed audibly On the edge of the golden circle below were the word *Rosabella*, in ultramarine enamel When another spring was touched, the rose went away, and the same melody that sounded from the heart of the golden apple seemed to be played by fairies on tinkling dew drops It paused a moment, and then struck up a lively dance The circular plate again rolled away, and up sprung an inch tall opera dancer, with enamelled scarf, and a very small diamond on her brow Leaping and whirling on an almost invisible thread of gold, she kept perfect time to the music, and turned her scarf most gracefully Rosabella drew a long breath, and a roseate tinge mantled her beautiful face, as she met her grandfather s gaze fixed lovingly upon her She thought to herself, 'There is no doubt now which is Florien s,' but she said aloud 'They are both very beautiful, are they not, dear grandfather? I am not worthy that so much pains should be taken to please me' The old man smiled upon her, and fondly patted the luxuriant brown hair, which shone like threads of amber in the sun 'Which do thou think the most beautiful?' said he

She evaded the question, by asking, 'Which do you?'

'I will tell thee, when thou hast decided,' answered he

She twisted and untwisted the strings of her bodice, and said she was afraid she should not be impartial 'Why not?' he inquired She looked down bashfully, and murmured, in a very low voice, 'Because I can easily guess which is Florien s'

'Ah ha,' exclaimed the kind old man; and he playfully chuckled her under the chin as he added, 'Then I suppose I shall offend thee when I give a verdict for the bee and the opera dancer'

She looked up blushing, and her large serious brown eye had for a moment a comic expression, as she said, 'I shall do the same'

Never were disciples of the beautiful placed in circumstances more favorable to the development of poetic souls The cottage of Antoine Breguet was

"In a glade,
Where the sun harbors, and one side of it
Listens to bees, another to a brook
Lovers, that have just parted for the night,
Dream of such spots when they have said their prayers,
Or some tired parent, holding by the hand
A child, and walking toward the setting sun"

In the stillness of the night, they could hear the 'rushing of the arrowy Rhone' From a neighboring eminence could be seen the transparent Lake of Geneva, reflecting the deep blue heaven above Mountains, in all fantastic forms, enclosed them round, and departed in heavy masses of sombre clouds, and now half revealed through sun-lighted vapor, like a veil of gold The flowing silver, of little waterfalls gleamed among the dark rocks Grape vines hung their rich festoons by the road side, and the beautiful barberry bush embroidered their leaves with its scarlet clusters They lived under the same roof with a guileless good old man, and with an innocent maiden, just merging into beautiful womanhood, and more than all, they were both under that great inspirer love

Rosabella was so uniformly kind to both, that Pierre could never relinquish the hope that constant devotedness might in time win her affections for himself Florien, having a more cheerful character, and more reliance on his own fascinations, was merely anxious that the lovely maiden should prefer his workmanship as decidedly as she did his person and manners — Under this powerful stimulus, in addition to the ambition excited by the old watch maker s proposal, competition between them was active and sure But the groundwork of their character was so good that all little heart burnings of envy or jealousy were quickly checked by the predominance of generous and kindly sentiments

'Religion' says Dr Channing, "is not the adoration of a God with whom we have no common properties, of a distinct, foreign, separate being, but of an all communicating Parent It recognizes and adores God as a being whom we know through our own souls, who is the perfection of our own spiritual nature, who has sympathies with us as kindred beings who is near us by spiritual influence and love who looks on us with parental interest and whose great design it is to communicate to us forever and in freer and fuller streams his own power goodness and joy"

He who declares all men knaves, convicts at least one!

Always speak well of your friends, but of your enemies speak no evil

There are two sides to everything except the religion of a hypocrite and that is all *outside*

Tubal Cain.

BY CHARLES MCKAY

Old Tubal Cain was a man of might
In the days when earth was young,
By the fierce red light of his furnace bright
The strokes of his hammer rung,
And he lifted high his brawny hand
On the iron glowing clear,
Till the sparks rushed out in scarlet showers,
As he fashioned the sword and spear
And he sang— 'Hurra for my handiwork!
Hurra for the spear and sword!
Hurra for the hand that wields them well,
For he shall be king and lord!'

To Tubal Cain came many a one
As he wrought by his roaring fire
And each one prayed for a strong steel blade
As the crown of his desire,
And he made them weapons sharp and strong
Till they shouted loud for glee,
And gave him gifts of pearl and gold,
And spoils of the forest free
And they sang— 'Hurra for Tubal Cain,
Who has given us strength anew!
Hurra for the smith, hurra for the fire,
And hurra for the metal true!'

But a sudden change came o'er his heart,
Ere the setting of the sun,
And Tubal Cain was filled with pain
For the evil he had done,
He saw that men with rage and hate,
Made war upon their kind,
That the land was red with the blood they shed,
In their lust for carnage blind
And he said—"Alas! that ever I made
Or that skill of mine shall plan,
The spear and the sword for men whose joy
Is to slay their fellow man!"

And for many a day old Tubal Cain
Sat brooding o'er his woe,
And his hand forbore to smite the ore,
And his furnace smoulder'd low
But he rose at last with a cheerful face,
And a bright, courageous eye,
And bared his strong arm for the work,
While the quick flames mounted high
And he sang— 'Hurrah for my handiwork!'
And the red sparks lit the air,
"Not alone for the blade was the bright steel made!"
And he fashioned the first ploughshare

And men, taught wisdom from the past,
In friendship joined their hands,
Hung the sword in the hall, and the spear on the wall
And plough'd the willing lands,
And sang—'Hurra for Tubal Cain!
Our staunch good friend is he,
And for the ploughshare and the plough,
To him our praise shall be
But while oppression lifts its head,
Or a tyrant would be lord
Though we may thank him for the plough,
We'll not forget the sword"

NOTICE.

☞ The present limits are inadequate to accommodate my numerous retinue of customers On 1st of February next, I shall commence to erect a "Stupendous Warehouse," sufficiently large to accommodate my friends and numerous customers "*Large* as the present House is, it is not sufficiently *large*," "*Spacious*, it is not sufficiently *spacious*," "*Brilliant* in appearance, it is not sufficiently *brilliant*." This Gigantic House, the *Glory of Boston*, is to come down, and a *Larger* more *Spacious*, and *Brilliant Establishment* is to take its place These names have been applied to my establishment by those that are acquainted with the real character of Oak Hall—Such as "a Superior Mart," "a Princely Warehouse," "a Fast Trader Area," "a Mammoth Establishment," "a Theatre of Unbounded Trade," "a Stupendous Scheme," "an Extensive Market," "a Triumphant Achievement," "a Specimen of Extraordinary Operations," "an Unapproachable Wonder." Such names probably will apply to my new construction when completed I might as well undertake to confine the vast ocean in the limits of our Pond on Boston Common, as to carry on my large trade within the walls of these present limits The public are aware that my tremendous statements are not overrated The trade at my extensive Warerooms may be compared to a large Mountain, whose bulk and mighty stature have become so great that it requires a larger sphere for its present movements This Warehouse erected in 1842, has to occupy the metropolis for extent and magnitude, and yet it is far, far from being equal to the extent of my heavy trading operations So liberal a patronage must have a larger house for the unfettered movements of its enormous form—an establishment far surpassing the present one is absolutely necessary, and one is shortly to be erected, that will surprise and delight all interested in my welfare.

G. W. SIMMONS,
Oak Hall, Boston.

P S Being obliged to move to make these stupendous alterations, the Large, Fresh Stock of Fashionable Ready made Clothing, Piece Goods and Rich Furnishing Goods, adapted to this present Fall and coming Winter, amounting to upwards of one hundred and twenty-five thousand dollars, will be closed up at prices much below the current prices I have been selling All the Furniture of the present establishment for sale—Large Mirrors, Clocks, Chandeliers with side Drapes, Counters, Show Cases, &c. &c. nov6

CONGRESS.

Washington, Jan 11—7 P M

In the Senate, Mr Atchison called the Senate to order, and read a letter from the Vice President, desiring Mr A to preside during his absence

Offence was taken at this by Mr Crittenden, who thought the Vice President was not empowered to delegate his authority during his absence, and with all respect to the honorable Senator, (Mr A) he moved that the Senate should proceed to the election of a president pro tem

Some debate ensued, when Mr Crittenden so modified his resolution, as to read, "Resolved, That Mr D R Atchison be and is hereby appointed President pro tem during the absence of the Vice President "

Mr Bagby then moved to substitute for Mr Crittenden s modified resolution, its original form, which Mr Crittenden accepted

The motion was passed

The Senate then balloted for a President pro tem The vote stood, Atchison 47, Sturgeon 1, Sevier 1 Mr Atchison was declared duly elected

It was moved that the Judiciary Committee be instructed to inquire into the expediency of repealing the 23d rule, which relates to this subject Agreed to

The Committee on Military Affairs reported a bill to provide for a temporary increase of the military force, also, a bill to authorize the appointment of a Lieutenant General Both these bills were made the special order for Thursday

The Senate went into Executive Session, and then adjourned

In the House—Personal explanations were made by Messrs Burt Harralson and B dinger

The bill to increase the regular army by ten regiments, was passed The vote stood 165 to 45

Mr Boyd then moved a reconsideration, carried, 137 to 55 The vote, ordering its engrossment for a third reading, was also reconsidered A motion was made to recommit—lost Sundry amendments, for the most part of an unimportant nature, were offered by Mr Boyd, the principal one being to provide for the disbandment of the officers and men at the close of the war The amendments were adopted, and the bill as amended was again passed—171 to 34

A motion was then made to reconsider, but was ordered by the Speaker to be out of order

The House then, on motion of Mr Douglas, went into a Committee of the Whole—Mr Hopkins in the Chair—and took up the bill to establish a territorial government in Oregon

Several unimportant amendments were discussed, and some adopted

The Committee rose and the Civil and Diplomatic Appropriation bill, and a bill authorizing a loan, and for other purposes, were reported by the Committee of Ways and Means Adj

Papers have been received from the city of Austin to Dec 12 It is stated that above 10,000 Camanche Indians had arrived within seven days ride of the Trading House high up on the Little River, five had been sent in by the chiefs and professed to be friendly A talk was to be had with them on the 15th or 20th, and presents would be distributed among them — The news was received by an express at Houston The Camanches express an intention to fulfill faithfully the stipulations of the treaty, and desire to remain on the frontier Fears were entertained that a surprise might be intended

The Law School in this city has suffered another serious loss Last evening the Assistant Professor, Isaac H Townsend, Esq breathed his last He was found in his bed yesterday morning, insensible, and all efforts to restore him to consciousness during the day proved unavailing

The storm of Monday was severe in this region, and much snow fell,—but it is badly drifted.

FOSTER'S MOUNTAIN COMPOUND seems to be the only article for the Hair, in which the public has placed implicit confidence Its "powerful tonic" and peculiar efficacy in the reproduction of the hair, aside from its virtues in giving richness and a lasting moisture, longer than any thing else can, give it a precedence with both ladies and gentlemen, over every other article heretofore intended for the toilet.

Nothing is like it in appearance or composition It is adapted pathologically to the cure of all diseases of the hair and skin An essay with no illustrative drawing, showing the structure of the skin and hair, with directions, is enclosed with each bottle. Sold by Messrs A. P Guild and Geo W Ladd, (Druggists,) only agents

☞ The Rev Mr ABBOTT, one of the Baptist Missionaries in the kingdom of Burmah, says That one of his children was very violently and suddenly attacked in the middle of the night with Croup or Hives, and that as soon as possible he administered JAYNE S EXPECTORANT to it, and in half an hour the child was cured Mr Abbott also states that another Missionary was in the interior of Aracan and beyond the reach of medical advice, when he had a very severe attack of that scourge of India, the CHOLERA, but by using Jaynes Carminative Balsam freely, (which he fortunately carried with him) the disease was completely subdued and his life saved — The next season Mr Comstock had another attack of Cholera, but the Carminative was not administered to him, because he had a Physician to attend to him, and he unfortunately died Comments are unnecessary

TIMBEY'S PATENT CAST-IRON
Water-Wheels.

Notice to Mill Owners.

THE undersigned having purchased of Theodore Timbey, of New York, the original inventor the Patent Right of the above celebrated Wheels for the State of Maine, now offers them for sale, and confidently recommends them as possessing more advantages than any other Wheels for Saw Mills, which are offered for sale in this State Besides its great power and speed, and its capacity of running under very light heads of water and not being effected by back water, it has but two vents for each Wheel, which will allow all drift stuff which is liable to get into the floom, to escape with out filling them up

It is now acknowledged by the most experienced and skilful mill-wrights and mill men, that these Wheels excel for Saw Mills any other Wheel known, and he refers to those which are now in operation in this vicinity, and more particularly to those now running in the mills in Upper Stillwater, side by side with the *celebrated* Stearn's Wheels, to prove that they surpass any other Wheels now in operation in this State

These Wheels are now manufactured by Messrs HINCKLEY & EGERY, of this city, who are authorised to dispose of the same with the Patent Right thereof, on the most reasonable terms.

Instruction in French.

MADEMOISELLE MYHAN respectfully announces to the Ladies and Gentlemen of Bangor that she is prepared to receive applications for her services as teacher of the French language at Mr Vilmerick's, on Hammond street

Mlle M flatters herself that a continued residence for some years at the celebrated establishment of the *Sacre Coeur*, at Paris where no other language than French was used either in hours of study or relaxation will be a sufficient guarantee for her of the possession of *a pure Parisian accent*

For her knowledge of the language skill in teaching, and success with pupils, she invites an inspection of her references in Boston &c.

As Mlle M has under consideration several eligible applications from other quarters, she would be particularly obliged to those who may desire to avail themselves of her services in Bangor, if they would apply as early as possible She would be glad to be enabled to decide by the 11th pr ximo, whether it is practicable for her to make permanent arrangements at Bangor

VALUABLE REMEDY.

WE copy by request a part of the following notice from the Boston Medical and Surgical Journal, the Evening Mercantile Journal, and the Boston Atlas wherein the Editors speak with unqualified praise of a new remedy for pulmonary disease, which cdoes indeed seem to be worthy their admiration It is the CHERRY PECTORAL prepared by Mr J C Ayer of Lowell Mass an apothecary and chemist of high standing, and being commended by Physicians of the highest respectability who have tested its virtues, has at least one merit—entire from all suspicion of quackery Its ingredients and mode of preparation are fully laid open to the inspection of the Profession and it is confidently believed its combination is such as to give the utmost energy of remedial effect The formula from which it is prepared has been published in several of the public Medical journals of the day, and thus ceasing to be a secret compound, its success is made to depend upon its intrinsic merits alone The Professor of Materia Medica at Pittsfield laid it before his class as one of the worthiest, truest and best things of its kind that had fallen under his notice Other Colleges and high Medical authorities have given it a scarcely less flattering reception We find in the statistical table of Lowell Manufactures this article mentioned as a staple product of that city The success that has attended its use does indeed seem to give reasonable ground for hope that it will yet be instrumental in subduing to some extent Consumption and the other pulmonary diseases so alarmingly prevalent in this climate While the Pectoral Cherry is a powerful and efficient remedy in aggravated disease it is also in diminished doses, one of the pleasantest, safest, and best family medicines in use

FOSTER'S
MOUNTAIN COMPOUND!
FOR THE HAIR,
IS AN ARTICLE IN WHICH THE PUBLIC MAY PLACE THE UTMOST CONFIDENCE

THE MOUNTAIN COMPOUND

is entirely different from any thing ever before introduced It combines several important and valuable properties that no other article of the kind does and which make it doubly efficacious Whether as a restorative or for removing DANDRUFF ERUPTIONS, or DISEASES of the skin of the head

Its powerful tonic and Lustral qualities give great beauty and richness to the texture of the Hair and ladies and gentlemen of Boston Portland Lowell and other places have testified to a very great extent to its admirable adaptation for freeing & softening curl ... and keeping the HAIR MOIST A GREAT LENGTH OF TIME—longer, much longer than any other, else can ... no substance is left to soil any fabric however delicate

Every individual who has bought one bottle of this Compound asks well of it and ... more and the proprietor feels confident to recommend it from that fact

☞ For testimony see small pamphlets

CONSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM OF LIFE.

THE

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma. and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Internal and Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable, and efficient curative of these formidable complaints, now known to the civilized world.

Three years of trial in the United States during which time it has been distributed from Maine to [illegible] [illegible], has only served to establish its pre-eminent merit in all parts of the country, as the great and

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slighter forms of colds, coughs and inflammation, that can possibly be used.

SPITTING OF BLOOD! This frightful symptom of approaching Consumption is [illegible] speedily checked and prevented by the use of Buchan's Hungarian Balsam, which heals the affected membrane, removes the incipient tubercles, and restores those vital organs, the lungs, to a sound and healthy condition.

REMEMBER THIS. Spitting of Blood always arises from a tendency to Tubercular disease, and if not checked, at the outset, will sooner or later terminate in death. A person who raises blood once will raise blood again, unless a proper curative is immediately employed!

PAIN IN THE SIDE! This distressing symptom of Consumption arises from inflammation of the Lungs or the Membrane called the Pleura, or from Bronchial affection of the air passages. Its earlier existence is a very dangerous indication of disease. It prevents full and free breathing, and weakens the entire system, [illegible] of the system. The cure of this symptom should be removed at once, and nothing can possibly effect that object so speedily and happily as the Great English Remedy, discovered by Dr Buchan, which contains no vegetable in its ingredients, and is perfectly harmless in all [illegible] of [illegible].

LIVER COMPLAINT. In cases of Consumption the Liver is always more or less affected, and also the Spleen, Heart and several organs. On dissecting Consumptive patients, tubercles are often found in these organs, particularly in the Liver, which becomes totally inflamed and swelled. The effect of the Hungarian Balsam in disease of the Liver, especially if it be of an ulcerous nature, is direct and powerful. Simple disease of the Liver, unattended by Consumption is speedily cured by its use.

WINTER COUGH. The harsh, dry, hacking winter cough which afflicts old people, and invalids in a low state of health is happily affected by the *Hungarian Balsam.*

It warms, moistens and stimulates the whole breathing apparatus, removes all mucous and other foul matter, purifies and nourishes the blood, improves the action of the Liver, Spleen, and other large glands, and the digestive organs, and imparts new life to the worn and enfeebled system.

BRONCHITIS. Bronchitis, Difficulty of Breathing, Harsh Cough, and every expectoration, with all other symptoms caused by an affection of the air cells and mucous membrane of the lungs, are directly and radically cured by the use of the admirable remedy discovered by *Dr Buchan.*

This is a very painful, irritating and injurious complaint and always has a powerful tendency to inflame and soften the Lungs, and thereby to induce the worst form of Pulmonary disease. He warned in time ye afflicted! and employ this valuable remedy.

TUBERCLES ON THE LUNGS! The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove, and cure Tubercles on the Lungs. Incredible as this is generally esteemed, we have the most abundant and convincing evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no natural organic defect. In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers (as he has frequently stated) that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent. He boldly declares that it will cure Tuberculous disease and consumption in the *worst of cases.*

EXPECTORATION! Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs. The Cough, which is so distressing, is simply the result of a desire to expectorate, and as long as foul matter exists in the air passage it will continue to irritate the membrane and provoke a cough. Coughing is an attempt to throw off this matter, and expectoration gives great relief. Inability to expectorate in the latter stages of Consumption is the cause of death.

The Hungarian Balsam is a *great Expectorant*— It dissolves the morbid and diseased matter in the air passage, changes it from a thick, glutinous substance, to a thin harmless fluid, and throws it off with the greatest possible ease and comfort to the patient. There is no better medicine in the world, if its expectorant quality alone be considered.

SPASMODIC ASTHMA. Simple or Spasmodic Asthma, has no better remedy than the Hungarian Balsam. This painful and destructive affection which resists almost every thing else, yields to the all powerful influence of this great remedy, as readily as any other form of Pectoral disease.

CONSUMPTION! Consumption has been graphically described as a *Shrinking of one's self!* The Hungarian Balsam, by its cleansing, warming, softening and animating power, produces, not shrinking but *expansion!*

Before its delightful influence, all chills, fever night sweats, costiveness, blueness of the nails, a hot flushed skin, an uncertain strength, emaciation and decline—disappear, like the poisonous dews of night before the glorious morning sun! This is no delusion but demonstrable fact, sustained by incontestable proof from all parts of the country.

BE WISE TO DAY! Delay in any case of Consumptive tendency, is emphatically Death under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described, be advised in time.

Sold in large bottles at only one dollar per bottle.

THE

GRAEFENBERG PILLS.

THERE ARE THE MOST CONCLUSIVE REASONS why that class of Medicines denominated "PATENT," should be among the means of inestimable and enduring blessings to the human family. Suppose, for example, that a hundred of talent, long and sagacious observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a Pill. Why may not this long devotion to this division of medical science be crowned with the success that attends the sacrifice of similar talents and toil in other things? There is no reason, and it is but the simplest dictate of the simplest common sense to say that a Pill thus produced will be as perfect an article as can be made by man. *Twenty five years devotion* to any one subject will give him an ability and mastery over it. This (which has been bestowed upon the

Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science.

It will be seen, in tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed THE FULNESS OF TIME. The mariner's compass, for instance, was not sure to be used in the "fullness of time." It was needed. The *loadstone* always lay at man's feet, but he never knew what a wonderful and unerring guide was there, until in the silent bosom, until the Divinely appointed time drew near when distant continents and islands were to be unveiled. It held it now transferred to the [illegible] of the adventurous sailor, enabling him to launch far away upon unknown Oceans, until all at times fully making within sight of a native land works.

So with the discovery of the New World, upon whose shores was to arise this Great Nation to a power, a glory, a mission far beyond the conception of the wildest fancy. The Old World had reached its highest [illegible], the "fulness of time" drew near for the revolution of the New, and behold the immortal Columbus from the forests of his drenched and leaky vessel found at [illegible] with the [illegible] of printing, of steam, of the magnetic telegraph. Each of these, in its own "fullness of time." Was the [illegible] and Providential.

☞ IN MEDICAL SCIENCE THE SAME GREAT PHILOSOPHICAL PRINCIPLE IS EQUALLY MARKED. Most [illegible] [illegible] of [illegible] principles of this which are to be found in the history of the world. We come [illegible] down to the present hour, all of them in a long [illegible] in giving to the [illegible] that *something not better* to heal human [illegible].

The [illegible] principle is as true of Medical as of Physical science as is clearly shown in the

GRAEFENBERG GAZETTE,

which is furnished gratuitously to all who wish it — The

Graefenberg Pills,

are deemed by those who have tested them, [illegible] [illegible] [illegible] among the [illegible] [illegible] [illegible] [illegible] known, and they are announced as

THE GREAT REMEDIAL TRIUMPH

The inventor of these Pills rests his theory upon no school or dogma of others in doctrines elsewhere. Planting himself upon the revelation of the

ALMIGHTY CREATOR,

THAT

"THE BLOOD IS THE LIFE."

he requires that [illegible] all his potent *vital spark* the *life current* to keep through their veins and arteries, to them they reach for PERMANENT cure. [illegible] [illegible] and [illegible] there, but bright and joyous health must come from a pure blood.

But a [illegible] in [illegible] be [illegible]? So complex are the impositions which are practised upon the public by pretenders — too numerous and to stand [illegible] mediums — [illegible] [illegible] [illegible] their [illegible] [illegible] believe in this Great Remedy. A word therefore, on this point.

In the first place READ THE GRAEFENBERG GAZETTE. No matter how skeptical you may be, that paper will convince you. Thousands *have been* convinced in every State and Territory in the Union and among them numbers of [illegible] [illegible] [illegible] [illegible] clergymen, physicians, [illegible]. [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] or send to the most convenient agency for a copy of the Gazette, which can be had.

GRATIS!!

In the second place, TRY THE PILLS. It will cost but the merest trifle, and will convince you to a certainty which you will do in a Health, to the end of your days.

A thousand things press upon the mind of the advertisers which they would rejoice to say to the reader, but the limits of the [illegible] [illegible] forbid it. But let any one afflicted with the following diseases make trial of the Graefenberg Pills and they will be PERMANENTLY CURED.

Asthma	*Flatulency,*
Bilious Complaints,	*Fluor Albus, or Whites,*
Boils	*Gastric Fever,*
Bowels deficient action in,	*Green Sickness,*
Breast Pains,	*Gripes,*

FROM A JUSTICE OF THE PEACE IN WESTERN N. YORK.

"I have sold as much as I have of the [illegible] of this place. They have given entire satisfaction, and they are destined to become the most popular Pill of the day."

FROM TOLEDO, OHIO.

"Having heard so much, and witnessed two or three cases cured in the [illegible] described by your Journal, I have thought it important you should have an agent at this place. In my opinion, more good can be done in this [illegible] [illegible] by your medicines, than by the old [illegible]."

I [illegible] [illegible] [illegible] the instance of a friend who is making [illegible] trial of your remedies, and with complete success."

FROM A DISTINGUISHED GENTLEMAN OF BOSTON.

Gentlemen,

I cannot refrain from troubling you with a few lines to express my great pleasure in being able to say, that I have experienced the greatest relief from the effect of your Pills. For many years I have suffered much from constipation, which has deranged my whole system, and I have not known a day's good health for many years past, and being an old man I despaired of ever again enjoying life. But a friend recommended me to try your Pills which I did, although without any confidence in the result. I am happy to inform you, has far exceeded my expectations, the cause of my suffering is nearly removed, and I feel my health and strength daily renewed and I can cheerfully [illegible] the merits of your Pill, which I think must be acknowledged by the whole community, and will become the most popular medicine of the day."

FROM JUDGE ——, OF GEORGIA.

Sir,

Since writing to you last upon the subject of my ill health, I have been taking your medicine, and am pleased to say, that they have been of great service to me and if they continue to give me the relief I have already felt I shall bless the day you sent them. I [illegible] [illegible] [illegible] to the [illegible] I have before told you of, but intend to persevere, and hope to be able, the next time I write, to give you the happy intelligence of a perfect cure. I have heard of many instances in my neighborhood wherein they have performed some extraordinary cures."

FROM AN EPISCOPAL BISHOP.

Gentlemen—I consider it to be the duty of every Christian to make known to the world any advantages that they may have derived by accident or from any discovery of their own, and with this sentiment strongly impressed on my mind, I feel great gratification in having it in my power to speak in the highest terms of the valuable discovery you have made in the production of your Pills. I was induced to try them, from the philosophical manner in which you have reasoned on the subject and I must do myself the pleasure, and you the justice to say that I had no conception so speedily an effect could be arrived at. My complaint has been that of the Liver, from which I despaired of getting better, but since taking your Pills, I find my general health, spirits and appetite so much improved that I hope to find myself able to enter, without bodily suffering, the duties of an arduous Profession. In future I will send to your agent for more Pills when needed. With great consideration and gratitude, I am, &c.

From every section of the entire country similar testimonials are daily received, but our limits forbid further extracts. ONCE TRIED, THE GRAEFENBERG PILLS WILL SUPERSEDE ALL OTHERS.

SICKNESS IN CHILDREN

And the suffering which they undergo from "WORMS" often tend to a fatal termination, while the CAUSE is never suspected. Offensive breath, picking at the nose, grinding the teeth during sleep, starting in sleep with fright and screaming, troublesome cough, and feverishness, are among some of the *Prominent Symptoms* of the presence of worms. A timely use of

SHERMAN'S WORM LOZENGES

Will immediately remove all these unpleasant symptoms and restore to perfect health. Sister Ignatius, Superior of the Catholic Half Orphan Asylum, has added her testimony in their favor to the thousands which have gone before. She states that there are over 100 children in the Asylum, and that they have been in the habit of using Sherman's Lozenges, and she has always found them to be attended with the most beneficial effects. They have been proved to be infallible in over 400 000 cases.

CONSUMPTION,

Influenza Coughs, Colds, Whooping Cough, Tightness of the Lungs or Chest may be cured. Rev Darius Anthony was very low from Consumption, Jonathan Howarth, the celebrated temperance lecturer, was reduced to the verge of the grave by raising blood. Rev Mr Dunbar of New York, the Rev Mr De Forest, Evangelist in the Western part of this state, Rev Sebastian Streeter of Boston, the wife of Orasmus Dibble, Esq. in Moravia, and hundreds of others have been relieved and cured by a proper use of

SHERMAN'S COUGH LOZENGES,

And no medicine has ever been offered to the public which has been more effectual in the relief of those diseases, or which can be recommended with more confidence. They allay all itching or irritation, render the cough easy, promote expectoration, remove the cause and produce the most happy and lasting effects.

HEADACHE,

Palpitation of the Heart, Lowness of Spirits, Sea sickness, Despondency, Faintness, Cholic, Spasms, Cramps of the Stomach, Summer or Bowel Complaints, also all the distressing symptoms arising from free living or a night of dissipation are quickly and entirely relieved by using

SHERMAN'S CAMPHOR LOZENGES.

They act speedily and relieve in a very short space of time, giving tone and vigor to the system, and enable a person using them to undergo great mental or bodily fatigue.

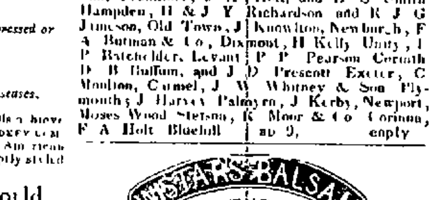

RHEUMATISM,

Weak Back, Pain and weakness in the Breast, Back, Limbs and other parts of the body are speedily and effectually relieved by SHERMAN'S POOR MAN'S PLASTER, which costs only 12½ cents, and is within the reach of all. So great has become the reputation of this article, that one million will not begin to supply the annual demand. It is acknowledged to be the best strengthening Plaster in the world.

BEWARE OF IMPOSITION

Dr Sherman's Poor-Man's Plaster has his name with directions printed on the back of the Plaster, and a ☞ *fac simile* ☜ of the Doctor's written name under the directions. None others are genuine or to be relied on. Dr Sherman's Warehouse is No 106 Nassau st. New York.

A very important discovery to which this 'Balsam' exerts a very power of influence [illegible] of a

DISEASED LIVER.

In this complaint it has undoubtedly proved more efficacious than any remedy hitherto employed and in numerous instances when patients had endured long and severe suffering from the disease without receiving the least benefit from various remedies, and when MERCURY has been resorted to in vain, the use of this Balsam has restored the LIVER to a healthy action, and in many instances effected

PERMANENT CURES,

after every known remedy had failed to produce this desired effect.

Opinion of a Regular Physician.

Exeter, Me., Sept. 30, 1845.

This certifies that I have recommended the use of Wistar's Balsam of Wild Cherry for diseases of the Lungs, for two years past, and many bottles to my knowledge have been used by my patients, all with beneficial results. In two cases where it was thought confirmed consumption had taken place, the Wild Cherry effected a cure.

E. BOYDEN, Physician at Exeter Corner.

NO QUACKERY! NO DECEPTION!

All published statements of cures performed by this medicine are, in every respect, TRUE.

BEWARE OF COUNTERFEITS AND IMITATIONS. The unparalleled and astonishing efficacy of Dr Wistar's Balsam of Wild Cherry in all the diseases for which it is recommended, curing many cases after the skill of the best physicians was unavailing, has effected a large and increasing demand for it. This fact has caused several unprincipled counterfeiters and imitators to palm off spurious mixtures, of similar name and appearance, for the genuine Balsam.

Be careful and get the genuine DR WISTAR'S BALSAM OF WILD CHERRY. None genuine unless signed by I. BUTTS. Address all orders to SETH W FOWLE, Boston, Mass.

FARM FOR SALE.

THE subscriber having removed from the State of Maine offers for sale the Farm recently occupied by him in Orono. Said Farm is beautifully situated on the Stillwater river, about one and a half miles from the village—contains one hundred acres of land, seventy-five of which are under improvement. There is a commodious and well finished BRICK HOUSE, two stories high, two Barns, and suitable Out houses, and an excellent, never-failing Well of water, on the Farm.

The Farm cuts about 30 tons of Hay, and may easily be made to cut twice that quantity; while it contains some of the first rate tillage land. The price and the conditions of sale will be reasonable, and may be ascertained on enquiry of F. P. BABCOCK, on the premises.

PARLOR COAL STOVE.

THIS STOVE was patented by Mr F. L. HEDENBERG, of New York, in 1845, and was sold by him to a considerable extent in that city last winter, giving entire satisfaction to those who used it.

The subscribers having purchased the right to vend the article in this city now offer them to the public with the fullest confidence that, for Parlors, Chambers, Stores, Halls and Offices, where little or no pipe is to be used, they are superior in point of economy, comfort and convenience, to any other Stove now in the market.

The principle on which the Stove is constructed will commend it to the judgment of the scientific, while a moment's observation of one in operation will secure the admiration of the practical man.

A lengthy description of this article is unnecessary. We prefer that it should be seen; believing that it will be found to possess those qualities for which all are looking in parlor and office Stoves, viz. beauty, durability, cleanliness, convenience in management, and ability to radiate the largest possible amount of heat before it passes from the stove. By a constant circulation of air in the room through the Stove (entering under the base) around the cylinder which contains the fire, the air is kept in a state of the greatest purity.

F. BROWN'S

SARSAPARILLA AND TOMATO BITTERS

THESE excellent Bitters will be found a certain cure in all cases of Indigestion or Dyspepsia, Jaundice, Loss of Appetite, General Debility, Faintness and sinking of the Stomach, Lowness of Spirits, Costiveness, Determination of Blood to the Head, Pain in the Limbs and Side, Diarrhœa, Weakness, Dizziness, Cutaneous Eruptions on the Face and neck, fever, night sweats, nervous and sick headache. Acidity of Stomach, bilious affections, piles, costiveness and in all diseases caused by impurity of the blood, the debility of the system or the unhealthy state of the stomach and bowels.

They are also exceedingly efficacious in restoring constitutions broken down by sedentary employments and have been extensively used by Clergymen, Editors, Printers, Clerks, Seamstresses and numerous others whose health had been injured by confinement and close application, with the happiest results.

They restore the action of the stomach, increase the quantity of the blood and impart to the wan and emaciated system of the invalid the vigor and glow of true health.

These Bitters are warranted to be a purely Vegetable compound—and mark this, ☞ they can never do the least injury in any case whatever. ☜

They are kept by many persons as a FAMILY MEDICINE, and have been given to the *youngest children,* on account of the mildness of their operation with excellent effects.

Be sure and always ask for Brown's as there are imitations and counterfeit articles sold which are no more like the genuine (which is prepared by Frederick Brown) than cold water.

Another New Thing in Penobscot.

The Trojan Pioneer Cooking Stove.

THE subscribers after great expenditure have succeeded in bringing this admirable Cooking Apparatus to perfection and are now prepared to furnish the public with the very best article ever invented. This Stove has had three of the highest premiums awarded to it that were ever awarded to a Cooking Stove, at the Fair of the American Institute in the City of New York a Silver Medal was awarded, at the great State Fair at Poughkeepsie, N. Y. 1844, where was the greatest competition ever known, the first premium was awarded to it and lastly at the Exhibition and Fair in Boston a Silver Medal was awarded to it. This celebrated Stove stands unrivalled in Boston New York and other places where it is in extensive use, 1800 of them were retailed by one establishment in Boston the past year; for all cooking and heating purposes it far surpasses any other Cooking Apparatus that can be produced. The oven is extremely large, being of sufficient capacity to admit six large pie plates or six large loaves of Bread, or even the largest pudding or bean pots in use at the same time. In addition to the advantages it has over other Stoves for boiling, baking, washing, frying, heating irons, &c., it is acknowledged by all who use them that they have the best arrangement for Baking and Roasting that has ever been in use, the steam (from all the cooking) being carried off effectually. This Stove being composed of two parts can be disconnected in one moment's time, so as to make two perfect Stoves which is of great value in warm weather as the summer stove which makes a handsome parlor stove may be used in the setting or dining room—and the other part in the back kitchen for Boiling or Washing; and in the fall of the year the two parts may be connected together as is represented above. In fact it is impossible to tell one half of the story about this Stove, and all who feel interested to get a first rate Cooking Apparatus are respectfully requested to call at our Store and examine the above where will be found a first rate assortment of Cook Stoves, Ranges, Hot Air Furnaces and Fixtures, Tin Ware, Sheet Lead, Pumps, Lead Pipe, Fire Frames, &c.

DEAFNESS CAN BE CURED.

COOPER'S ETHEREAL OIL.—A prompt and lasting remedy for DEAFNESS, also for pains and discharge of matter from the Ears.

Hundreds of cures in cases deemed utterly hopeless have firmly established its superiority over every former Medical discovery.

This valuable Acoustic Medicine is a compound of four different Oils, one of which, the active and principal ingredient, is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of deafness.

Persons who had been deaf for 10, 15 and even 20 years have been permanently cured by using this oil. In fact, so numerous and so emphatic have been the testimonials in its favor, that the inventor claims for it the distinction of an Infallible Remedy, in all cases, when the Ear is perfect in its formation.

For further particulars, and evidence of its great value, see printed sheets, in the hands of Agents.

VALENTINE'S PATENT
REVERSING, CENTRIFUGAL

WATER-WHEEL.

The subscribers offer for sale the above WHEELS which are intended for upright or perpendicular shafts and they refer to the annexed certificates to show that this Wheel is superior to some Wheels which have been advertised and certified as surpassing the Great Wheel.

Saugus, March 26, 1845.

Mr J. Whitney—Sir—Your letter of the 24th instant I have received inquiring as to the operation of Valentine's Vertical Centrifugal Water Wheel now in use in the Tide Mills at Saugus.

It certainly gives me great pleasure to give credit where I think credit is justly due. I exchanged last November, as you know, one of the old fashioned tub wheels for one of Valentine's, and, after four months' use of the same, I must say that it is one of the best wheels I ever saw.

In the same Mills, at the same time, one of the Howd wheels was put in operation, but with all the commendation that the Howd Wheel has and indeed is worthy of, I must give the Valentine Wheel greatly the preference, and for these reasons—it costs far less, it vents less water, is less liable to damage, will run more hours and with less head, and is capable of doing more business.

The Valentine Wheel, as near as I can calculate, vents three fifths as much water as the Howd.

Since the above wheel has been in operation I have seen ground into good meal forty bushels of corn per hour, with one run of stones.

Yours, with respect,
BENJ. F. NEWHALL.

I have been engaged as Miller, in the Tide Mills aforesaid, for eighteen years, and I fully concur in the statements made by Mr Newhall.

ISAAC COLLINS.

Portland, March 17, 1845.

Mr Samuel Waite—Sir: We have to say to you, and through you to Messrs Hinckley & Egery, Manufacturers of Bangor, that the Valentine Wheel exceeds in power and general excellence any previous expectations we were willing to conceive of it, from your representations, before we tried it in our new Paper Mill. The 5½ feet diameter wheel, with our head of water, which is 14 feet, moves our four engines, which are of the largest size with the theoretical discharge of 250 square inches of water.

In short, we most heartily recommend the Valentine Water Wheel as possessing or combining more of the requisite qualities of the very best Water Wheel, than any other known to us. We invite those interested in the matter to visit our new Paper Mill at Cogin, five miles from Portland, Me.

Respectfully yours,
DAY & LYON.

VALENTINE'S WATER WHEEL.
[To the Editor of the Whig and Courier.]

Milo, April 29, 1845.

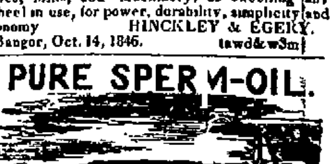

I have lately purchased of Messrs Hinckley & Egery, one of Valentine's Patent Reacting Water Wheels, which has been put in operation by Mr David M'Clench, an experienced Mill wright of this town, for propelling machinery in the Woollen Factory. The wheel so far excels our expectation that I consider it an act of justice to the proprietors to recommend the Wheel to persons building Factories or other Mills, as being superior to any other Wheel with which I am acquainted. The Wheel is 5½ feet in diameter, and the head of water is 4 feet. This drives one set of Woollen Machinery, with fulling mill and picker. The power is very near three times as much power as the 11 feet Tub Wheel which we have used heretofore. The Wheel is not obstructed by back water, and goes sufficiently steady without the aid of a regulator.— Persons interested in Water Wheels are invited to call at the Factory and examine for themselves.

J. W. CUSHING.

The undersigned confidentially recommend this Wheel to the owners and operators of Manufactories, Mills, and Machinery, as excelling any Wheel in use, for power, durability, simplicity and economy. HINCKLEY & EGERY.
